COLORADO

Chief Information Officer & Executive Director

Governor's Office of Information Technology

Delegation of Authority Policy

Document ID	POL-ENT-001
Title	Delegation of Authority Policy
Executive Sponsor	David Edinger, Chief Information Officer & Executive Director
Issuing Authority	Governor's Office of Information Technology (OIT)
Applies to	State agencies as defined in C.R.S. 24-37.5-102(28) — all departments, divisions, commissions, boards, bureaus, and institutions in the executive branch of state government, excluding the legislative and judicial departments, the department of education, the department of law, the department of state, the department of the treasury, and state-supported institutions of higher education.
Instrument Type	Policy
Version	3.0
Effective Date	10/01/2021
Last Updated	07/20/2026

1. Purpose

To establish the Governor's Office of Information Technology (OIT) policy for delegation of authority for certain information technology functions from OIT to another state agency.

2. Policy

It is the policy of OIT, within the sole discretion and judgment of the State Chief Information Officer, to delegate information technology functions from OIT to another state agency in accordance with C.R.S. 24-37.5-105.4. For an information technology function to receive delegated authority, it must have its own delegation of authority request approved, and a corresponding delegation of authority interagency agreement must be fully executed by both the State Chief Information Officer and the agency's Executive Director.

3. Applicability

This policy applies to state agencies as defined in C.R.S. 24-37.5-102(28) as "all of the departments, divisions, commissions, boards, bureaus, and institutions in the executive branch of the state government" — not including the legislative or judicial departments, the department of education, the department of law, the department of state, the department of the treasury, or state-supported institutions of higher education.

5. Definitions

Reference the Delegation of Authority Procedure for definitions.

6. Responsibilities

Reference the Delegation of Authority Procedure for responsibilities.

7. Compliance

An agency does not have authority to assume responsibility for, or exercise authority over, any information technology function until the associated delegation of authority interagency agreement is fully executed. Failure to comply with this policy and follow the associated Delegation of Authority Procedure may risk placing the requesting agency, OIT and/or the State out of statutory and/or legal compliance.

8. Expiration

This policy remains in effect until superseded or rescinded by the State Chief Information Officer & Executive Director of OIT.
