I. AUTHORITY

Authority: Idaho Code § 67-831 through § 67-833

II. ABSTRACT

This policy establishes a structured framework for aligning IT strategies with organizational goals, ensuring efficient resource allocation, risk management, compliance, and adaptability to technological changes.

III. DEFINITIONS

There are no definitions for this policy.

IV. POLICY

State agencies shall submit an annual Agency IT Plan to ITA by July 15 each year. This plan should outline feasible and cost effective IT initiatives and/or projects that align with the agency's business plan, budget requests, and technology goals.

The IT Plan must document IT initiatives and/or projects on a four (4) year planning horizon with annual updates to account for legislative mandates, budgets, funding sources, and emerging technologies. The plan should also note material changes to prior year plans.

ITA and the Division of Financial Management (DFM) will review the IT Plan for alignment with statewide IT strategies. ITA may select specific projects for formal review and approval, per ITA Policy P2030 (Information Technology Large-Scale Review) .

State of Idaho - Unrestricted/Public

If new IT initiatives arise outside of the annual plan submission, agencies must promptly update their project list. Any separately submitted projects may require additional details, as requested by ITA.

The IT plan must be submitted electronically via the Office of Information Technology Services (ITS) online system.

V. EXEMPTION PROCESS

Refer to ITA Policy P1010 (Information Technology Policies, Standards, and Guidelines Framework).

VI. PROCEDURE REFERENCE

Criteria for the annual Agency IT Plan and plan development are detailed in ITA Guideline G110 (Agency IT Plan). Project profiles are addressed in ITA Policy P2030 (Information Technology Large-Scale Project Review) and ITA Guideline G210 (IT Project Profile).
