RCW 43.105.450 State agency information technology security

1. PURPOSE

This foundational standard establishes the enterprise service framework through which WaTech develops, delivers, and governs enterprise capabilities supporting implementation of WA.gov.

WA.gov will leverage the Customer Identity & Access Management service (Enterprise Standard EA-02-07-S) to provide a single point of access to Washington State government services and an improved user experience for residents, visitors, businesses and state agencies.

2. SCOPE

In Scope

This standard applies to all executive agency websites and digital applications that provide public access to state services.

3. APPLICABILITY

This standard applies to all state agencies (as defined in RCW 43.105.020). This standard does not apply to the K-20 network, institutions of higher education, legislature, judiciary, or local governments.

4. ENTERPRISE SERVICE CAPABILITIES

The WA.gov enterprise service broadly encompasses the following capabilities:

1. Display of the standardized WA.gov navigational component on all agency websites and digital applications.
2. List agency services in the statewide service and agency directory.
3. Connect agency applications with WA.gov

Enterprise Implementation Roadmap

WA.gov Enterprise Service capabilities will be implemented incrementally. Requirements will be established through service-specific standards, technical requirements, procedures, implementation guidance, service catalogs, and related governance documents as those services become operational.

5. WAIVERS AND EXEMPTIONS TO THIS STANDARD

Requests for temporary waivers resulting from phased implementation of WA.gov capabilities shall be evaluated according to the Enterprise Waiver Process (POL-01-02-S Technology Policy and Standard Waiver Request Standard).

No categorical exemptions currently apply.

6. AUTHORITY

This standard is issued under the authority of RCW 43.105.054, which grants WaTech authority to establish statewide technology standards and enterprise services. RCW 43.105.385 establishes WaTech as the central service provider for state agencies, supporting the delivery of common enterprise technology services. RCW 43.105.450 requires state agencies to comply with statewide information technology security policies and standards.

Executive Order 25-06 establishes statewide direction for improving customer experience across Washington state government. This standard establishes the governance framework for WaTech enterprise services that support agencies in implementing an improved digital experience for those accessing Washington State's online services. This standard does not replace or supersede requirements established by the Executive Order or by the Governor's Office.
