Management Directive

Commonwealth of Pennsylvania
Governor's Office

Management Directive 205.35 Amended – Information Reporting from the Commonwealth's Enterprise Business Information Warehouse System

Date: June 12, 2024

By Direction of:

Neil R. Weaver, Secretary of Administration

Contact Agency: Office of Administration
Office for Information Technology
Telephone: 717.787.5440

This directive establishes policy, responsibilities, and procedures for users of the Commonwealth's Integrated Enterprise System (IES). This amendment updates definitions, responsibilities, and procedures, and revises the policy to ensure the proper and cost-effective use of existing technology and to streamline the process for requesting new reports or changes to existing reports.

1. PURPOSE.

To establish policy, responsibilities, and procedures for the planning, management, and utilization of the Commonwealth's Business Warehouse (BW) system.

2. SCOPE.

This directive applies to all departments, offices, boards, commissions, and councils under the Governor's jurisdiction and to independent agencies with access to or which utilize the Commonwealth's BW system (hereinafter referred to as "agencies").

3. OBJECTIVE.

To ensure that IT Resources made available through the Commonwealth's BW system are utilized in an effective and efficient manner.

4. DEFINITIONS.

a. **Agency Business Information Users.** Users who benefit from having insight into the data that is captured in IES, including but not limited to Data Analysts, Executives, Business Users, and users in the Integrated Enterprise System Office (IESO).

b. **Business Information Warehouse or Business Warehouse (BW).** The data repository for the Commonwealth's ERP system.

c. **Business Process Owner (BPO)**– Designated individual(s) within an agency that make decisions and assign priorities for work efforts within IES business modules.

d. **Enterprise Resource Planning (ERP)** – A system of integrated software applications that is used to integrate core business processes (i.e., finance, human resources, payroll, procurement, plant maintenance, real estate, sales and distribution, etc.).

e. **Help Desk Ticket** - A request submitted by a user or a request submitted by a Help Desk employee on behalf of a caller to receive assistance for IT related questions or problems.

f. **Integrated Enterprise System (IES).** The Commonwealth's enterprise transaction processing system, which serves as the processing system for all business transactions in support of enterprise business processes. With respect to this directive, the IES System is the source for reports of a transactional, non-strategic nature.

g. **Information Technology (IT) Resources.** Equipment or interconnected systems or subsystems of equipment, networks, or services used to receive, input, store, process, manipulate, control, manage, transmit, display and/or output information, including, but not limited to: computers, mobile devices, servers, telephones, fax machines, copiers, printers, Internet, Intranet, email, ancillary equipment, software, firmware, cloud-based services, systems, networks, platforms, plans and data, training materials and documentation and social media websites.

5. POLICY.

It is the policy of the Commonwealth to ensure that users of information from the Commonwealth's BW system are made aware of and comply with the following requirements for the efficient and effective utilization of IT Resources.

a. In order to minimize duplication in the delivery of information, agencies shall leverage existing IT Resources instead of creating or procuring separate reporting systems.

b. Agency Business Information Users, in collaboration with the appropriate BPO, shall work with the IES team, to identify business information reporting needs and ensure the solution meets the needs.

6. RESPONSIBILITIES.

a. **Secretary of Administration** shall, in conjunction with the Deputy Secretary for Information Technology, issue and be the sole interpreter of all enterprise information reporting policy and procedures governing the planning, management, and utilization of IT Resources supported by the Commonwealth's BW system.

b. **Office of Administration, IESO** shall develop procedures, guidelines, and standards for all reporting from the Commonwealth's BW system.

c. **Agency Business Information User** shall, in collaboration with the appropriate BPO, work with the IES team, to identify business information reporting needs and ensure the solution meets the needs.

7. PROCEDURES.

a. Agency Business Information Users.

(1) Determine that a report is needed to perform their job more efficiently and effectively, and that no existing report, in IES or BW, will fulfill their need.

(2) Input the formal request document, as identified by the IES team member, utilizing the:

(a) Agency Help Desk Ticket for changes to existing reports; or

(b) Project Intake Form (PIF) for new report requests.

b. IES, BW Team.

(1) Receives and reviews the request for the reporting requirement.

(2) Ensures the BPO is aware of the request.

(3) Contacts the requestor to discuss requirements and determine if a change to an existing report or development of a new report is required.

(4) Reviews the request with the appropriate BPO for prioritization.

(5) If the reporting requirement can be met with existing reports, informs the Agency Business Information User of the appropriate report. If a change to an existing report or new report is required, initiates the development process.

(6) Notifies the Agency Business Information User when the report is available for use.

This directive replaces, in its entirety, *Management Directive 205.35 Amended*, dated May 2, 2011.
