Data Backup, Storage and Restoration
WyIT.2003

Policy Owner	Drew Dilly, Chief Data Officer
Policy Contact	Pat Potter, Deputy Chief Data Officer
Policy Approver	Jeff Clines, Chief Information Officer
Effective Date	Nov 4, 2026
Next Review Date	October 01, 2027
Policy Version	2026-09.1

Scope:

This policy establishes comprehensive requirements and procedures for data backup, storage, and restoration across Wyoming Executive Branch agencies to ensure information and data availability, integrity, and business continuity.

This policy addresses backup planning and implementation, storage security and protection, data recovery procedures, compliance with state and federal requirements, risk-based security controls, and governance accountability for protecting Wyoming state data and information assets through systematic backup and recovery operations.

Authority

This policy is promulgated under the authority of Wyoming State Statute 9-2-2906 and its subsections, the Department of Enterprise Technology Services is required to adopt and enforce information technology standards, and promote efficient use of information technology throughout state government.

Specifically, this policy is further promulgated under the authority of the below listed Wyoming State Statute subsections.

- Implements and maintains an information technology governance program for state agencies (W.S 9-2-2906,(b), (ii));
- Establishes and enforces data security and privacy policies and standards for the state data infrastructure Establishes review criteria for the agencies information technology projects, procurements and purchases. (W.S 9-2-2906,(b), (iii)); and

Adopts information technology policies and standards and ensures agency compliance with those policies and standards (W.S. 9-2-2906,(b), (vi)).

Audience

This policy applies to all Executive Branch agencies, boards, and commissions staff (collectively referred to as "agencies"). This policy is also applicable to consultants, affiliates, third party vendors and temporary employees that use or store data.

Definitions

Key Definitions, Acronyms, and Terms

Policy Statements:

1. Each agency must ensure a backup plan is in place with necessary oversight to address scheduled backup of systems and user-level data or information on a regular basis.
   [1]

2. Backups shall be conducted at the frequency and technical scope requested by the agency through formal backup service requests. This includes information system documentation, and security-related documentation.
   [2]

3. Backups shall be stored in protected locations with encryption required for off-site storage. Off-site storage must comply with geographic restrictions.
   [3], [4]

4. Backups shall be protected to prevent unauthorized destruction or access by unauthorized personnel.
   [3]

5. Backup timelines must ensure valid restoration and recovery is always possible.
   [1]

6. Mechanisms to protect backup integrity shall include digital signatures and cryptographic hashes.
   [3]

7. Backups shall undergo initial restoration testing and regular scheduled testing thereafter with documented results.
   [1]

8. Restoration procedures shall include inventory of software and hardware needed for successful recovery.
   [1]

9. Backup security measures shall align with information classification levels, with enhanced encryption and access controls required for Confidential information. [3], [5]

Applicable State Policies, Federal, State or Industry Rules, Laws, and/or Regulations

1. National Institute of Standards and Technology (NIST) SP 800-34
2. Wyoming Title 16 - City, Counties, State and Local Powers - Wyoming Joint Powers Act
3. National Institute of Standards and Technology (NIST) SP 800-53 Rev. 5
4. WyIT.2005, Information Residency and Transportation
5. WyIT.2001, Information Classification

Compliance & Exceptions:

Compliance

Employees who violate this policy may be subject to appropriate disciplinary action up to and including discharge as well as both civil and criminal penalties. Non-employees, including, without limitation, contractors, may be subject to termination of contractual agreements, denial of access to IT resources, and other actions as well as both civil and criminal penalties.

Exceptions

Requests for exceptions to this policy shall be reviewed by the Chief Information Security Officer (CISO) and the Chief Information Officer (CIO). Departments requesting exceptions shall provide such requests to the CIO in accordance with WyIT.3002 Policy Exception Request.

The request should specifically state the scope of the exception along with justification for granting the exception, the potential impact or risk attendant upon granting the exception, risk mitigation measures to be undertaken by the IT Department, initiatives, actions and a time-frame for achieving the minimum compliance level with the policies set forth herein. The CIO shall review such requests; confer with the requesting department.

Any exception to established policy shall be defined and tracked as a risk to the state and established mitigating controls monitored by the agency.

Review/Approval:

Date Issued/Review Date

This policy shall be reviewed at least annually and updated / reviewed / approved as defined in the Office of Chief Information Officer (OCIO) Policy lifecycle.

The review and update process shall be coordinated by Governance, Risk and Compliance (GRC), completed by the policy owner and approved through the OCIO policy review workflow.

Approval

This policy as signed by the appropriate officer (listed below) is considered approved and enforced, per Wyoming State Statutes (W.S 9-2-2906,(b), (iii)) and (W.S. 9-2-2906,(b), (vi)).
