OPR: WVOT Change Enablement Forum (CEF)

COMPLIANCE WITH THIS PUBLICATION IS MANDATORY

Publications are available online at
https://sites.google.com/wv.gov/othub/policy-governance/ot-policies

Questions and change recommendations related to this publication shall be directed to this publication's Office of Primary Responsibility (OPR). This policy shall be reviewed annually to ensure continued alignment with current legal, operational, and strategic requirements. Revisions will be undertaken as necessary.

SUMMARY OF VERSIONS AND CHANGES

Version	Date	Revision Description
1	07/01/2015	Added Log History, Policy-Specific Definitions, Related Materials/Documents
2	09/01/2016	Reviewed - No Changes
3	10/20/2017	Reviewed - No Changes
4	12/31/2023	Updated website information
5	02/25/2026	Reformated

1. PURPOSE

1.1. This policy establishes Enterprise Change Management to standardize the identification, evaluation , planning, coordination, communication and implementation of changes to the State computing environment in such a way as to minimize any potential disruption to the user community, to ensure that all impacted users and support groups are making necessary accommodations to the change(s), and to increase the value of Information Resources.

2. SCOPE

2.1. This policy applies to all departments (including agencies, boards, authorities, and commissions) within the Executive Branch of WV State Government, excluding constitutional officers, the WV Board of Education, the WV Department of Education, and the county boards of education that have access to or use State-provided resources.

2.2. Where there are policies in place which provide less restrictions or security than this policy, those policies will be superseded by this policy. In instances where existing state and federal laws, regulations, and policies are more restrictive than this policy, the more restrictive provisions will prevail.

2.3. This policy pertains to all devices on the state network along with their configurations.

2.3.1. Changes to State computing environment arise from many circumstances:

2.3.1.1. Periodic maintenance

2.3.1.2. User requests

2.3.1.3. Hardware and/or software upgrades

2.3.1.4. Acquisition of new hardware and/or software

2.3.1.5. Performance Tuning

2.3.1.6. Federal mandates

2.3.1.7. Changes in state law

2.3.1.8. Unforeseen events.

3. POLICY

3.1. Roles and Responsibilities

3.1.1. System administrative privileges shall be limited to those support personnel requirements for business purposes. Such authority shall be revoked upon determination by agency management that such access is no longer required. More information on administrative privileges may be found in other WVOT polices found in the publications library at: https://sites.google.com/wv.gov/othub/policy-governance/ot-policies

3.1.2. All agencies shall be responsible for maintaining a current roster of individuals with administrative access to each supported system or set of systems.

3.1.3. The team responsible for the system(s) being changed will review all high risk/impact changes to ensure that all relevant State areas are aware of the criticality of the change, and to assure that the business needs of the individual agencies are addressed as a consequence of the proposed change. Herein referred to as the Change Enablement Forum (CEF).

3.1.3.1. Enough detail will be provided so all agencies know the relative impact of the change to their individual system.

3.1.3.2. Planning documents, including a thorough impact analysis, will be generated, for each change, as specified by the CEF or WVOT Director signoff.

3.1.3.3. Section staff members will provide a status to the CEF member representing their section for discussion at the appropriate meeting.

3.1.4. The CEF member for the system being changed will:

3.1.4.1. Analyze, approve or deny, and facilitate all change requests that receive approval;

3.1.4.2. Refer change requests to any impacted individuals and units when conflicts have not been resolved or when it is considered to be a high risk;

3.1.4.3. Provide overall direction, monitor performance, and provide administration of the system change.

3.1.4.4. Take responsibility for assuring that planning documents are presented, published, and distributed as needed for complex changes or changes involving a long timeframe.

3.1.4.5. Assess the impact of planned changes on field staff and meet with the change requester, independent of any Change Meeting, to resolve any outstanding issues affecting a proposed change.

3.1.4.6. Ensure that any changes being made will not nullify any regulatory safeguards in place.

3.1.5. Change Requesters are staff members who initiate change. They are usually primary staff members who are given an assignment to make a change through opening a Change Request. Change Request should be sent through Change Request Form https://docs.google.com/forms/d/e/1FAIpQLScfo4HOurkHibDYebkW36dDKKfVYXDwXfAhz7h3gcXxiUyu6Q/viewform?usp=sf_link

3.1.5.1. Change Requesters will ensure that changes are immediately documented and updated with problem information resulting from the installed change.

3.1.5.2. Change Requesters will identify potential exposures and assign a risk level to all changes.

3.1.5.3. Change Requesters will prepare and coordinate a viable "back-out" plan which will explain in detail the steps that must be taken to restore access in the event the change results in a negative situation. This will be presented at the Change Meeting for review.

3.1.5.4. Change Requesters will coordinate proper on-site or on-call support as needed to resolve any problems that may occur during installation or immediately subsequent to installation.

3.1.5.5. Change Requesters will ensure that the customer understands and concurs with any possible impact.

3.1.5.6. Change Requesters will coordinate progress reports with their Team Lead.

3.1.5.7. Change Requesters will develop a communication plan to ensure stakeholders are notified of the impending change and its potential impact in alignment with MOU's and contract specifications.

3.2. All Executive Branch information systems must comply with a change management process that meets the standards outlined below:

3.2.1. All current baseline configurations must be recorded and maintained. When a new baseline configuration is created, the old baseline must remain available to perform a restore if needed.

3.2.2. All configurations must be reviewed annually, including baselines by the agency's designee.

3.2.3. Every change to a WVOT Information Resources resource such as: operating systems, computing hardware, networks, and applications is subject to this Change Management Policy and must follow the Change Management Procedures and Processes.

3.2.4. All changes affecting a computing facility's environmental controls (e.g., air-conditioning, water, heat, plumbing, electricity, and alarms) need to be reported to or coordinated with the system's designated leader of the change management process.

3.2.5. The CEF will meet weekly to review change requests and to ensure that change reviews and communications are being satisfactorily performed.

3.2.6. Formal written change requests must be submitted for all changes, both scheduled and unscheduled via the CRF Form.

3.2.7. Each scheduled change request must receive documented approval and required sign off from the CEF before testing can proceed.

3.2.8. CEF members may deny a scheduled or unscheduled change for reasons including, but not limited to,

3.2.8.1. Inadequate planning,

3.2.8.2. Inadequate rollback plans,

3.2.8.3. The timing of the change will negatively impact a key business process such as year-end accounting, or another scheduled change, or

3.2.8.4. Adequate resources cannot be readily available. Note: Adequate resources may be a problem on weekends, holidays, or during special events.

3.2.9. Customer notification must be completed for each scheduled or unscheduled change following the steps contained in the Change Management Procedures.

3.2.10. Change Review must be completed for each change, whether scheduled or unscheduled, and whether successful or not. Change Reviews occur as part of the weekly CEF Meeting.

3.2.11. A Change Management Log will be maintained by the CEF for all changes. The log must contain, but is not limited to:

3.2.11.1. Date of submission and date of change

3.2.11.2. Owner and custodian contact information

3.2.11.3. Nature of the change

3.2.11.4. Indication of success or failure

4. POLICY SPECIFIC DEFINITIONS

4.1. Change Requesters - anyone who requests a change to an information system. For example, the Change Requester for an application program modification may be an application analyst. The Change Requester for a change to the computer room will be the Director of Computer Operations or the Director's designee.

4.2. Chief Information Officer (CIO) - the person designated by the governor to lead the WV Office of Technology and oversee information technology practices and initiatives for the Executive Brand of WV State government, excluding the constitutional officers.

4.3. Change Enablement Forum (CEF) - Consists of directors and managers from multiple areas of WVOT, who make appropriate determinations.

4.4. Office of Primary Responsibility (OPR) - The primary section within WVOT that takes the lead on a specific policy or procedure. Usually the WVOT service provider/owner that the policy is related to or governs.

4.5. Procedure – A defined series or sequence of steps followed in a definite regular order ensuring the consistent and repetitive approach to actions.

4.6. West Virginia Office of Technology (WVOT) - The division of the Department of Administration established by WV Code § 5A-6-4a, et. seq., which is led by the State's CIO and designated to acquire, operate, and maintain the State's technology infrastructure. The WVOT is responsible for evaluating equipment and services, and reviewing information technology contracts.

4.7. Workstation – A personal computer; also called a PC.

5. RELEVANT MATERIALS AND DOCUMENTS

5.1. This policy is consistent with the following federal and state authorities:

5.1.1. 45 Code of Federal Regulations (CFR) §§ 164.308-316

5.1.2. Freedom of Information Act

5.1.3. Gramm-Leach Bliley Act (GLBA)

5.1.4. Health Insurance Portability and Accountability Privacy Rule

5.1.5. NIST SP 800-14 and NIST SP 800-53

5.1.6. State Health Privacy Laws

5.1.7. WV Code § 5A-6-4

5.1.8. WV Executive Order No. 7-03

5.1.9. WVOT Policies Issued by the Chief Information Officer (CIO), https://sites.google.com/wv.gov/othub/policy-governance/ot-policies
