Data Owner Standard
WyIT.2001-S1

Document Owner	Department of Enterprise Services, Data Privacy
Document Contact	Pat Potter, Deputy Chief Data Officer
Document Approver	Wyoming Data Governance Committee (WDGC)
Effective Date	September 12, 2025
Next Review Date	April 1, 2027
Document Version	2026-09.1
Associated Policy	WyIT 2001, Information Classification

Introduction:

This standard establishes the requirements and duties for Data Steward functions to ensure consistent day-to-day information classification, labeling, and handling in compliance with Wyoming information management policies..

This standard applies to all Executive Branch agencies, boards, and commissions staff (collectively referred to as "agencies"). This standard is also applicable to consultants, affiliates, third party vendors and temporary employees that use or store data.

Authority

This standard is promulgated under the authority of Wyoming State Statute 9-2-2906 and its subsections, the Department of Enterprise Technology Services is required to adopt and enforce information technology standards, and promote efficient use of information technology throughout state government.

Specifically, this policy is further promulgated under the authority of the below listed Wyoming State Statute subsections.

- Implements and maintains an information technology governance program for state agencies (W.S 9-2-2906,(b), (ii));
- Establishes and enforces data security and privacy policies and standards for the state data infrastructure Establishes review criteria for the agencies information technology projects, procurements and purchases. (W.S 9-2-2906,(b), (iii)); and

Adopts information technology policies and standards and ensures agency compliance with those policies and standards (W.S. 9-2-2906,(b), (vi)).

Audience

This policy applies to all Executive Branch agencies, boards, and commissions staff (collectively referred to as "agencies"). This policy is also applicable to consultants, affiliates, third party vendors and temporary employees that use or store state data.

Definitions

Key Definitions, Acronyms, and Terms

Primary Duties:

1. **DUTY DESCRIPTION**
   - 1.1. Perform day-to-day classification of information assets according to established classification criteria and organizational sensitivity levels.
   - 1.2. Apply appropriate classification labels and ensure proper handling procedures are followed for all information assets.
   - 1.3. Maintain consistency of classification decisions within assigned data domains and identify classification discrepancies.
   - 1.4. Document classification decisions with appropriate justifications and maintain classification decision records.
   - 1.5. Identify when aggregated data requires higher classification levels and recommend appropriate reclassification.
   - 1.6. Conduct annual reviews of classifications and provide recommendations for adjustments to Data Owners.

The below table references federal audit standard requirements for 'data owners'.

Requirement	NIST Cybersecurity Framework (CSF) 2.0	NIST Risk Management Framework (RMF) – SP 800-37 Rev. 2	NIST Privacy Framework Version 1.0
REQ-001	GV.AT-01, GV.RR-02	AT-2, AT-3, PS-2	GV.AT-P1, GV.PO-P3

Requirement	NIST Cybersecurity Framework (CSF) 2.0	NIST Risk Management Framework (RMF) – SP 800-37 Rev. 2	NIST Privacy Framework Version 1.0
REQ-002	ID.AM-05, GV.SC-01	RA-2, CM-2	ID.IM-P1, ID.IM-P2
REQ-003	PR.DS-02, ID.AM-05	MP-3, MP-4	PR.DS-P1, PR.DS-P2
REQ-004	GV.OC-01, ID.AM-05	PM-5, RA-2	GV.PO-P2, ID.IM-P3
REQ-005	GV.OC-02, ID.AM-01	PM-5, CM-2	GV.PO-P2, ID.IM-P3
REQ-006	ID.RA-01, GV.SC-01	RA-2, RA-3	ID.RA-P1, ID.IM-P2
REQ-007	GV.RM-01, ID.RA-01	CA-2, RA-3	GV.MT-P1, ID.RA-P1
REQ-008	PR.AT-01, GV.AT-01	AT-2, AT-4	CT.PO-P4, GV.AT-P1
REQ-009	PR.DS-03, GV.SC-02	MP-6, MP-4	PR.DS-P3, PR.DS-P4
REQ-010	DE.CM-01, RS.CO-02	IR-6, IR-8	PR.IR-P1, GV.MT-P2
REQ-011	GV.RR-01, GV.SC-02	PM-2, CA-2	GV.RR-P1, GV.RR-P2

Audit Controls and NIST Framework Mappings:

These are the standard controls from prior audits.

1. **(REQ-001) Data Steward Designation and Training**
    a. Implementation. Agencies shall formally designate Data Stewards for each data domain with documented responsibilities and ensure completion of classification training within 60 days of assignment.

b. Validation. Verify Data Steward appointments are documented with clear domain assignments and confirm completion of required training and annual refresher courses.

2. (REQ-002) Daily Classification Operations

a. Implementation. Data Stewards shall classify new information assets within 5 business days of creation or acquisition using established classification criteria (Public, Internal, Confidential-Standard, Confidential-Regulated).

b. Validation. Audit classification timeliness and accuracy through random sampling and verify adherence to classification criteria and documentation standards.

3. (REQ-003) Classification Labeling and Handling

a. Implementation. Data Stewards shall apply appropriate classification labels to all information assets and ensure proper handling procedures are communicated to users and documented in accessible formats.

b. Validation. Review labeling consistency across data domains and verify that handling procedures align with classification levels and regulatory requirements.

4. (REQ-004) Classification Decision Documentation

a. Implementation. Data Stewards shall document all classification decisions with justifications, including sensitivity assessment rationale, regulatory considerations, and aggregation impact analysis.

b. Validation. Audit classification documentation for completeness and verify that decision rationale aligns with organizational classification criteria.

5. (REQ-005) Data Domain Consistency Management

a. Implementation. Data Stewards shall maintain consistency of classification decisions within their assigned data domains and identify inconsistencies or discrepancies requiring resolution.

b. Validation. Conduct cross-domain consistency reviews and verify that similar data types receive consistent classification across organizational units.

6. (REQ-006) Aggregation Impact Assessment

a. Implementation. Data Stewards shall evaluate when combining or aggregating data

elements requires higher classification levels and recommend appropriate reclassification to Data Owners.

b. Validation. Review aggregation assessments for accuracy and verify that recommendations properly consider cumulative sensitivity and regulatory implications.

7. (REQ-007) Annual Classification Review Process

a. Implementation. Data Stewards shall conduct comprehensive annual reviews of all classifications within their domains and provide documented recommendations for adjustments based on changing sensitivity or requirements.

b. Validation. Verify completion of annual reviews within required timeframes and assess quality of recommendations provided to Data Owners.

8. (REQ-008) User Training and Communication

a. Implementation. Data Stewards shall communicate classification requirements and handling procedures to data users and provide guidance on proper information handling based on classification levels.

b. Validation. Assess effectiveness of user communication through feedback surveys and verify that users understand classification requirements for their assigned data.

9. (REQ-009) Media Sanitization Support

a. Implementation. Data Stewards shall identify media containing classified information requiring sanitization and coordinate with Data Owners on appropriate sanitization methods based on classification levels.

b. Validation. Verify proper identification of media requiring sanitization and confirm coordination with Data Owners meets established timelines and procedures.

10. (REQ-010) Classification Incident Reporting

a. Implementation. Data Stewards shall identify and report potential misclassification incidents, unauthorized disclosures, or classification policy violations to Data Owners and appropriate security personnel.

b. Validation. Review incident reporting processes and verify that incidents are identified, documented, and escalated according to established procedures.

11. (REQ-011) Regulatory Classification Support

a. Implementation. Data Stewards handling Confidential-Regulated information shall maintain awareness of applicable regulatory requirements and ensure classification decisions support regulatory compliance obligations.

b. Validation. Verify Data Steward understanding of applicable regulations through testing and audit classification decisions for regulatory compliance alignment.

Compliance & Exceptions:

Compliance

This document supports an established policy, so there are no compliance requirements.

Exceptions

Since standards are not held to a compliance standard, there are no exceptions to this standard.

Review/Approval:

Date Issued/Review Date

This policy shall be reviewed at least annually and updated / reviewed / approved as defined in the Office of Chief Information Officer (OCIO) Policy lifecycle.

The review and update process shall be coordinated by Governance, Risk and Compliance (GRC), completed by the policy owner and approved through the OCIO policy review workflow.

Approval

This policy as signed by the appropriate officer (listed below) is considered approved and enforced, per Wyoming State Statutes (W.S 9-2-2906,(b), (iii)) and (W.S. 9-2-2906,(b), (vi)).

To obtain a signed copy of this document, contact Enterprise Technology Services Governance, Risk and Compliance (ets-ocio-grc@wyo.gov).
