SENDING ENCRYPTED EMAIL STANDARD

WyIT -3001-S

PURPOSE: This standard is to ensure the proper encryption standards are utilized when sending sensitive data via the State authorized email solution.

I. APPLICABILITY

This standard applies to all Executive Branch agencies, boards and commissions staff (collectively referred to as "agencies"). This policy is also applicable to consultants, affiliates, and temporary employees.

II. DEFINITIONS

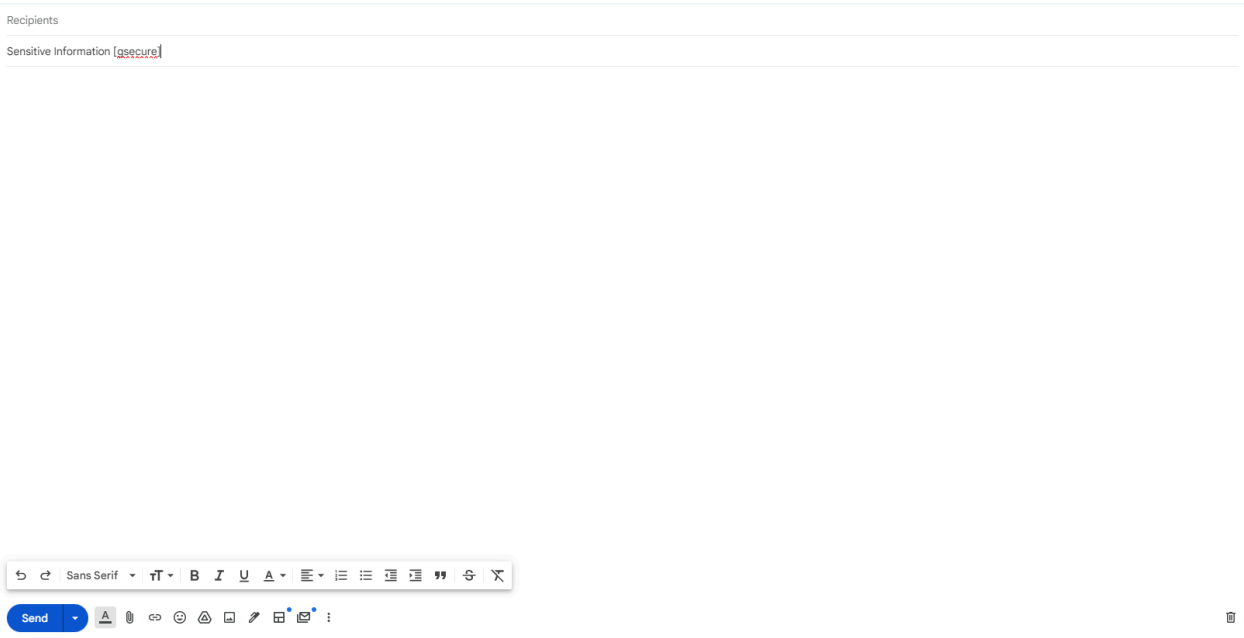

All definitions for this policy are located in the Policy Dictionary.

III. EXCEPTIONS

There are no exceptions to this standard.

IV. REQUIREMENTS

- The OCIO has provided the ability to send encrypted emails outside of the wyo[.]gov domain. It's required that emails and associated attachments containing, included but not limited to protected, sensitive, personally identifiable information (PII) and protected health information (PHI) utilize the encryption capable enterprise solution. The following is an example based on a new email creation in the State authorized solution:

- If a wyo{.]gov entity has the need to encrypt all emails being sent outside of the state domain, the respective entity should submit a request to the OCIO Service Desk.

REFERENCES: This standard has no supporting references to websites, other policies, federal or state statutes.
