Policy Contact	Pat Potter, Deputy Chief Data Officer
Policy Approver	Jeff Clines, Chief Information Officer
Effective Date	Nov 4, 2026
Next Review Date	October 01, 2027
Policy Version	2026-09.1

Scope:

This policy establishes comprehensive requirements and procedures for data backup, storage, and restoration across Wyoming Executive Branch agencies to ensure information and data availability, integrity, and business continuity.

This policy addresses backup planning and implementation, storage security and protection, data recovery procedures, compliance with state and federal requirements, risk-based security controls, and governance accountability for protecting Wyoming state data and information assets through systematic backup and recovery operations.

Authority

This policy is promulgated under the authority of Wyoming State Statute 9-2-2906 and its subsections, the Department of Enterprise Technology Services is required to adopt and enforce information technology standards, and promote efficient use of information technology throughout state government.

Specifically, this policy is further promulgated under the authority of the below listed Wyoming State Statute subsections.

- Implements and maintains an information technology governance program for state agencies (W.S 9-2-2906,(b), (ii));
- Establishes and enforces data security and privacy policies and standards for the state data infrastructure Establishes review criteria for the agencies information technology projects, procurements and purchases. (W.S 9-2-2906,(b), (iii)); and
